Rubinetterie Teorema has made the history of Made in Italy for more than 100 years.

Teorema products are synthesis of design, usability, Italian quality in the bathroom and kitchen. Teorema also means products that are environmentally friendly; in fact its production is conceived with the use of tools and technologies that allow you to produce taps with versatile design and which are impeccable with respect eco-sustainable philosophy.

Teorema Rubinetterie is today part of the WTS Group, a large Italian industrial group which is, thanks to its quality and strength, one of the major international landmarks for the residential, tourist-hotel and wellness tap industry.

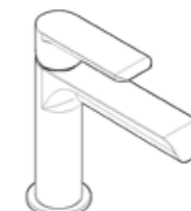

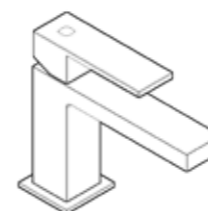

WTS Group stands for the Italian excellence of sanitary taps. The industrial group represents the best brands in the sector, which are Made in Italy but at the same time are projected to the international market.

WTS means: reliability, practice, cutting edge design, and attention to the surrounding environment. The brands that are parts of the group pay serious attention to the quality of the material and to the research of new technologies which allow the production of high-quality items with competitive prices. When it comes to WTS Group, we can identify a family of companies with an Italian heart, which exports abroad its consolidated know-how in terms of production, distribution and strategic alliance in different countries.

*I have the simplest tastes;
I am always satisfied with the best.*

(Oscar Wilde)

A close-up photograph of a modern bathroom sink. The sink is white and rectangular, set on a dark, speckled countertop. A tall, gold-colored faucet with a curved spout and a single-lever handle is mounted on the sink. The backsplash behind the sink is made of small, square, light-colored mosaic tiles. The lighting is bright, highlighting the metallic finish of the faucet.
