A photograph of a red tufted chair with a glass chandelier and red roses. The chair is the central focus, with its tufted backrest and seat visible. To the left, a glass chandelier with multiple tiers of glass is partially visible. To the right, several large, vibrant red roses are in bloom. The lighting is dramatic, with strong highlights and deep shadows, creating a rich, warm atmosphere. The overall composition is artistic and elegant.

DATI TECNICI

I mobili 'high gloss' sono rivestiti di pellicole Renolit Covaren-termoplastiche multistrato 3D termoformate.

I top in acrilico solido hanno la superficie solida ed omogenea. Tutte le componenti chimiche impiegate per la produzione del materiale sono approvate dalla NSF-FDA, CSS e ASTM. I top sono prodotti in conformità agli Standard ISSFA ed alle norme DIN 4102 B-1.

Per i piani e mobili in vetro utilizziamo vetri temperati. Sono 5 volte più resistenti agli urti rispetto ai vetri tradizionali ed in caso di rottura il vetro si rompe in tanti piccoli pezzi con ridotta pericolosità al taglio. Le vernici utilizzate per la loro colorazione sono della ICA water based caratterizzate dalla bassa tossicità, facilità di pulizia e basso impatto ambientale. Non contengono metalli pesanti e solventi.

I top in pietra hanno la certificazione SGS.

I specchi utilizzati sono del marchio FLOTAL (marchio brevettato). Sono molto resistenti ad'usura e corrosione. La loro superficie posteriore e' rivestita con

uno strato di pellicola che impedisce la disintegrazione di specchio nel caso di rottura.

Alluminio anodizzato 6060 utilizzato per le costruzioni interne è prodotto in conformità al Certificato di qualità QUALANOD e certificato con ISO 9001:2000 di Bureau Veritas.

Vernici utilizzate per la colorazione dei mobili sono della AKZO NOBEL e non contengono sostanze nocive alla salute.

Collanti ed adesivi sono del marchio HENKEL.

I mobili "leather" sono rivestiti in similpelle. Possono essere danneggiati da solventi chimici ed abrasivi, da oggetti taglienti o acuminati e sono infiammabili.

La cerniere delle ante sono facilmente regolabili per un allineamento perfetto e sono dotate di ammortizzatore di chiusura. Il prodotto è certificato.

Le guide dei cassetti sono del marchio HETTICH. Sono dotate di ammortizzatore di chiusura "soft close" e di sistema di apertura "push pull". Il prodotto è certificato.

Top, piani in vetro e mobili in vetro possono essere danneggiati dall'uso di materiali graffianti e possono risultare macchiati dai residui del calcare presente in acqua.

Mobili sono imballati in cartoni riciclabili nel pieno rispetto della salvaguardia ambientale. I materiali di polietilene utilizzati come shock assorbente non contengono sostanze tossiche ed hanno requisiti idonei all'uso alimentare.

I colori indicati nel catalogo possono non essere perfettamente corrispondenti all'originale.

L'azienda si riserva la facoltà di variare le informazioni ed i contenuti di questo catalogo in qualsiasi momento.

NeoART

by ANTONIO VALANTI & *Bohème*

NeoArt Collection by Antonio Valanti & Boheme

Первые образцы эксклюзивной мебели Antonio Valanti/ArmadiArt были изготовлены в далеком 1974 году. Начиналось все с небольшого ателье, а сегодня ArmadiArt - это фабрика, расположенная на 10 000 м² производственных площадей. Вот уже 40 лет основной идеей для Armadi Art остается не производство, а ИЗГОТОВЛЕНИЕ мебели. Использование широчайшей гаммы материалов, порой самых неожиданных, а также совмещение самых современных инженерных решений и ручной работы лучших мастеров позволяет получить изделие, которое удовлетворяет самых притязательных клиентов в лучших бутиках и салонах по всему миру. Эксклюзивность мебели Antonio Valanti/ArmadiArt это не только изысканный дизайн, но и высочайшие по качеству материалы, а также самые передовые технологии. Абсолютно весь цикл производства и используемые компоненты производятся в Европе.

В коллекции NeoArt, представленной в данном каталоге, используется ультраглянцевый акриловый МДФ, не только имеющий глубокий и насыщенный цвет, но и позволяющий изделиям служить долгое время несмотря на влажную среду. Столешницы изготовлены как из керамики, каленого стекла, так и материала Solid Glass®, в состав которого входит мраморная крошка и стекло, материал чрезвычайно прочен, не оставляет следов царапин и обладает неповторимой глубиной цвета. Эксклюзивная линейка раковин данной коллекции вряд ли оставит равнодушными даже самых притязательных клиентов. Некоторые из них производятся по оригинальным лекалам из материала Corian®, другие из чистейшего горного хрусталя, с оптимальным содержанием окиси свинца (PbO), не менее 24%. Произведенные в Италии ручки покрыты позолотой 24Карат. Дно выдвижных ящиков покрыто кожей с маркировкой Antonio Valanti. В изделиях используется фурнитура от мирового лидера Hettich®.

Главной идеей, при проектировании данной коллекции, было желание предоставить нашим Заказчикам возможность участвовать в создании индивидуальной мебели. Широчайший выбор эксклюзивных компонентов и богатая цветовая гамма открывает новые горизонты в декорировании интерьеров.

An aerial photograph of a coastline. The top half of the image shows a large, light-colored bay or lagoon with a sandy or silty floor. A narrow isthmus connects this bay to a larger body of water below. The bottom half of the image shows a darker, teal-colored body of water. A rocky peninsula with several large, dark rocks protrudes into the water from the left side of the isthmus. The overall scene is captured from a high angle, showing the intricate details of the shoreline and the contrast between the different water bodies.

An aerial photograph of a tropical beach. The water is a vibrant turquoise color, transitioning to a lighter, milky white foam as it washes onto a sandy shore. Large, dark, jagged rocks are scattered along the left side of the beach. The foreground is filled with lush green foliage, including ferns and other tropical plants, which are slightly out of focus. The overall scene is serene and idyllic.
